HOW TO PLAY

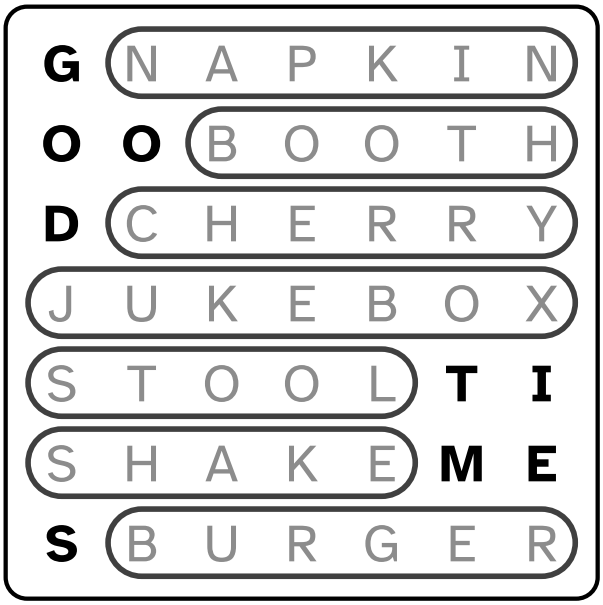

1. Read the question at the top of the page, next to the question mark.
2. Find every word in the list and circle it in the grid. Check off each word as you go. Words with two or more parts are hidden together, without the spaces: BACK SEAT is hidden as BACKSEAT.
3. Under WORDS RUN, in the white circle on the black band, the arrows show which ways the words can run. Black arrows are in play; gray ones are not. Each decade adds new ways:

   The Fifties: left to right and top to bottom.
   The Sixties: the same, plus diagonally down to the right.
   The Seventies: the same, plus right to left and bottom to top.
   The Eighties: all 8 directions, diagonals included.

4. When every word is circled, some letters are left over. Read them from left to right, row by row, starting at the top. They spell the answer to the question.
5. Write the answer on the lines at the bottom of the page. Each group of lines is one word. All the answers are at the end.
