This is a work of fiction. The story, the places, the events and the organizations in it are imaginary and are not connected with any real event, place, organization or person. The names in the suspect register were built from public U.S. Census name lists and paired at random; any resemblance to real people is a coincidence.

The case has been checked by computer: there is exactly one killer, every clue is needed to narrow the register down to the finalists, and the answer is never printed in the book.

# WELCOME, DETECTIVE

Thank you for opening this case. Somewhere in these pages, among 1,500 names, one person committed a crime, and you are the only detective on the case.

Every clue is fair, a checkpoint after every clue keeps you on track, and the answer is never printed, so nothing can spoil the surprise. Take it one clue at a time. There is no rush.

Happy sleuthing,
the team at Fun Books Publisher

# HOW TO PLAY

You are the detective. A crime has been committed at the Fairhaven Classic Car Show, and the killer is one of the **1,500 people** in the Suspect Register, which comes right after the clues.

**1. Read the case.** The story tells you what happened.

**2. Take the clues one at a time.** Each clue tells you one true fact about the killer, and exactly what to cross out.

**3. Go through the whole register** and cross out every suspect who does not match the clue. Draw one straight line through the name, so you can still read it later.

**4. Check your work.** After every clue there is a **checkpoint**. If your numbers match, carry on. If not, look back over that clue before you move on.

**5. Part One ends with 4 finalists.** In **Part Two** you study the police case files to find out which of them is the killer. Part Two has its own instructions.

**6. Check your answer** with the Verdict Code at the end of the book.

**You will need:** a pen or a fine marker, good light, and a cup of something nice. A ruler or a bookmark helps you keep your place on the page.

**Take your time.** This is not a race. Most detectives solve a few clues a day.

# A QUICK PRACTICE CASE

Here is a tiny register with only six suspects, already solved, so you can see how it works before you start the real case.

| TICKET | NAME | AGE | CROSSED OUT BY |
|---|---|---|---|
| ~~41207~~ | ~~Ann Lee~~ | ~~34~~ | Clue 1 |
| ~~52818~~ | ~~Bob Hart~~ | ~~67~~ | Clue 3 |
| ~~63544~~ | ~~Ida Moss~~ | ~~45~~ | Clue 2 |
| ~~70132~~ | ~~Tom Reyes~~ | ~~52~~ | Clue 3 |
| ~~81936~~ | ~~Eve Cole~~ | ~~28~~ | Clue 1 |
| **90217** | Joe Park | 71 | **THE KILLER** |

**Clue 1.** The killer is 40 years old or older. Cross out Ann (34) and Eve (28).

**Clue 2.** The killer's ticket number contains the digit 1. Cross out Ida, because her ticket, 63544, has no 1 in it.

**Clue 3.** The killer's ticket number is odd. Cross out Bob (52818) and Tom (70132). Only Joe Park is left.

That is all there is to it. The real case works exactly the same way, just with a great many more suspects. Good luck, detective.

CASE FILE

# MURDER AT THE CLASSIC CAR SHOW

Every September the lawns of Fairhaven Park fill with chrome and whitewall tires. The Fairhaven Classic Car Show brings together two hundred of the finest old cars in New England, and fifteen hundred visitors come to walk among them, talk engines and watch the judging.

This year the whole show was waiting for one car: the Duchess, a 1934 roadster that Clifford Banning, the most famous restorer in the country, had spent nine years bringing back to life. On her hood sat her original crystal mascot, the Glass Swan, worth one hundred and twenty thousand dollars on its own.

At twenty-five past three, a judge came to fetch the Duchess for the final round and found Clifford on the floor of the Restoration Barn. He had been struck from behind, and he was dead. The Duchess was still there. The Glass Swan was gone.

Every visitor bought a numbered ticket at the gate, and the box office kept a register: ticket number, name and age. Fifteen hundred people. One of them is the killer.

This bonus case works exactly like the books. In **Part One**, the clues will help you rule out suspects until only four **finalists** are left. In **Part Two**, the police case files, a map of the showground and three tests will tell you which of the four did it.

**MY NOTES**

# PART ONE: THE CLUES

## EVIDENCE #1

Clue 1 of 13

The insurance for the afternoon rally drive around the park covered only drivers aged 65 or younger, and every rally driver was given a numbered plaque for the dashboard. The killer's rally plaque was found behind the door of the Restoration Barn. Its number has been scratched away.

**The killer is 65 years old or younger.**

**What to do:** Cross out every suspect older than 65.

**CHECKPOINT.** When you have finished this clue, page 22 should have **27** names left and page 32 should have **41**. To check any other page, use the Checking Tables on page 46.

# EVIDENCE #2

Clue 2 of 13

The ticket printer at the gate jammed on every 8, so visitors with an 8 in their ticket number were given a handwritten ticket on green card. All the other tickets were printed on white card. A small corner of the killer's ticket, with no digits on it, was found caught in the barn's side door. It is white.

**The killer's ticket number does not contain the digit 8.**

**What to do:** Cross out every suspect whose ticket number has an 8 anywhere in it.

**CHECKPOINT.** When you have finished this clue, page 30 should have **24** names left and page 38 should have **29**. To check any other page, use the Checking Tables on page 46.

# EVIDENCE #3

Clue 3 of 13

Every car on the lawn has a brass name plate on a little stand, showing the owner's last name. The engraving machine had lost its letter I, so any last name with an I had to be painted on the plate by hand. The killer's name plate was found kicked under the barn workbench. The name has been scratched over, but the plate is engraved from end to end, and there is no paint on it anywhere.

**The killer's LAST name does not contain the letter I.**

**What to do:** Cross out every suspect whose last name contains the letter I.

**CHECKPOINT.** When you have finished this clue, page 23 should have **11** names left and page 33 should have **19**. To check any other page, use the Checking Tables on page 46.

# EVIDENCE #4

Clue 4 of 13

A volunteer printed each owner's last name on a windshield card for the judges, using a box of rubber letter stamps. The box had lost its L, so any L had to be written in with a pencil. The killer's windshield card was found torn in half on the barn floor. The ink has run in the damp and no letter can be read, but every mark on it is stamped ink: there is no pencil anywhere.

**The killer's LAST name does not contain the letter L.**

**What to do:** Cross out every suspect whose last name contains the letter L.

**CHECKPOINT.** When you have finished this clue, page 23 should have **7** names left and page 37 should have **13**. To check any other page, use the Checking Tables on page 46.

## EVIDENCE #5

Clue 5 of 13

Every owner was given a cloth patch with their first name embroidered on it. The small patch holds five letters at most, so any longer first name was stitched on the large patch instead. The killer's patch was found in an oil pan in the barn, too stained to read. It is the small patch.

**The killer's FIRST name has 5 letters or fewer.**

**What to do:** Cross out every suspect whose first name has more than 5 letters.

**CHECKPOINT.** When you have finished this clue, exactly **126** suspects should be left in the whole register.

---

## EVIDENCE #6

Clue 6 of 13

The show was celebrating its thirty-third year, so every visitor with a 3 anywhere in their age was given a red anniversary lanyard, and everyone else a plain navy one. A navy lanyard, snapped in the struggle, was found beside Clifford. He never wore one, so it can only be the killer's.

**The killer's AGE does not contain the digit 3.**

**What to do:** Cross out every suspect whose age has a 3 in it.

**CHECKPOINT.** When you have finished this clue, exactly **87** suspects should be left in the whole register.

## EVIDENCE #7

Clue 7 of 13

Lunch vouchers came in two colors: orange for tickets ending in 0, 1, 2, 3 or 4, and purple for tickets ending in 5, 6, 7, 8 or 9. A torn orange voucher, its number gone, was found by the back wheel of the Duchess. Clifford's own voucher was still in his pocket, so this one is the killer's.

**The LAST digit of the killer's ticket is 0, 1, 2, 3 or 4.**

**What to do:** Cross out every suspect whose ticket ends in 5, 6, 7, 8 or 9.

**CHECKPOINT.** When you have finished this clue, exactly **55** suspects should be left in the whole register.

---

## EVIDENCE #8

Clue 8 of 13

Entry cards for the Guess the Mileage contest were printed in two patterns: striped cards for first names ending in A, E, I, O or U, and plain cards for every other first name (a Y does not count as a vowel). A torn plain entry card, with the name ripped away, was found in Clifford's hand. He never entered the contest, so the card is the killer's.

**The killer's FIRST name does not end with A, E, I, O or U.**

**What to do:** Cross out every suspect whose first name ends with A, E, I, O or U.

**CHECKPOINT.** When you have finished this clue, exactly **34** suspects should be left in the whole register.

# EVIDENCE #9

Clue 9 of 13

The registration desk typed each owner's last name on a label for the car cover, using an old typewriter that jams whenever the same key is struck twice in a row. Every name with a doubled letter, like Russell or Moore, came out with a heavy black blot at that spot. The killer's label was found on the barn floor, so faded that no letter can be read, but there is no blot anywhere on it.

**The killer's LAST name has no letter doubled in a row.**

**What to do:** Cross out every suspect whose last name has a doubled letter, like Russell or Moore.

**CHECKPOINT.** When you have finished this clue, exactly **23** suspects should be left in the whole register.

## EVIDENCE #10

Clue 10 of 13

The sign-painter's stall lettered first names onto souvenir license plates with metal stencils. The L stencil snapped in the morning, so any L had to be painted freehand. The killer's plate was found in the barn, and a splash of paint thinner has turned the name into a smear. Still, the crisp stencil edges show on every letter: nothing on it was painted freehand.

**The killer's FIRST name does not contain the letter L.**

**What to do:** Cross out every suspect whose first name contains the letter L.

**CHECKPOINT.** When you have finished this clue, exactly **15** suspects should be left in the whole register.

---

## EVIDENCE #11

Clue 11 of 13

For the Route 66 prize draw, every visitor with a 6 anywhere in their age had a checkered sticker put on the back of their ticket, always in the bottom corner. The corner torn from the killer's ticket, the one caught in the barn's side door, is that bottom corner. It has no sticker.

**The killer's AGE does not contain the digit 6.**

**What to do:** Cross out every suspect whose age has a 6 in it.

**CHECKPOINT.** When you have finished this clue, exactly **9** suspects should be left in the whole register.

# EVIDENCE #12

Clue 12 of 13

For the hay wagon ride around the park, every visitor was given a ride token with a wagon on it: Wagon A when the FIRST digit of their ticket number is bigger than the LAST digit, and Wagon B for all the others. The killer's ride token was found under the hood latch of the Duchess. It shows only the words WAGON A.

**The FIRST digit of the killer's ticket is bigger than the LAST digit.**

**What to do:** Cross out every suspect whose first ticket digit is equal to or smaller than the last.

**CHECKPOINT.** When you have finished this clue, exactly **6** suspects should be left in the whole register.

# EVIDENCE #13

Clue 13 of 13

Owners picked up their judging folder from two boxes sorted by first name: yellow folders for first names from A to M, pink folders for N to Z. An empty yellow folder was left on the barn workbench. Clifford's own folder was still in his car, so this one is the killer's.

**The killer's FIRST name begins with a letter from A to M.**

**What to do:** Cross out every suspect whose first name begins with N to Z.

**CHECKPOINT.** When you have finished this clue, exactly **4** suspects should be left in the whole register. These are your **finalists**. Write their names and ticket numbers in the box on page 48, then turn to Part Two.

# CHECKING TABLES

How many names should be left on each register page after each clue. Find your page in the first column. The tables stop at Clue 4. After that, so few names are left that a table would point straight at the finalists; the checkpoints give the total for the whole register instead.

# CHECKING TABLES

How many names should be left on each register page after each clue. Find your page in the first column. The tables stop at Clue 4. After that, so few names are left that a table would point straight at the finalists; the checkpoints give the total for the whole register instead.

# PART TWO: THE CASE FILES

Well done, detective. Four finalists are left, and every one of them matches every clue. Now find out which of them killed Clifford Banning.

The show staff copied the records in a hurry and wrote down only the **last three digits** of each ticket, never names. So first write down your four finalists and their full ticket numbers in the box below. Many other numbers appear in the files: they belong to people you crossed out in Part One, so you can ignore them. When a record's three digits match one of your finalists, it belongs to that finalist: the police have already checked. A ticket with a torn corner was still accepted everywhere at the show.

The visitor records are **not complete**, so a finalist who is missing from them has done nothing wrong. What counts is a record that puts a finalist somewhere else at the wrong time. The last two files, for the tire irons and for the owner's passes, are complete lists.

The killer must pass all **three tests** on the next page. Each of the other finalists fails at least one.

# THE THREE TESTS

## TEST 1: OPPORTUNITY

Clifford was attacked in the Restoration Barn at some moment between **3:10 and 3:20 PM**. The killer had to be in the barn at some point in that window, even if only for a moment.

**How to check it:** Look up the last three digits of each finalist's ticket in the visitor records (Files A to H). If a finalist was seen somewhere at a time that makes it **impossible** to reach the Restoration Barn between 3:10 and 3:20, that finalist fails this test. The map shows the walking time along each path. To find the time from one place to another, **add up the minutes along the quickest route**. Walking times are the same in both directions.

**Example:** the quickest route from the Auction Tent to the Restoration Barn goes through the Motor Museum: 3 + 7 = 10 minutes (the way through the Main Tent and the Clubhouse takes 11). So someone seen in the Auction Tent at 3:15 PM could not have been in the Restoration Barn at any moment between 3:10 and 3:20.

**And the other way around:** someone seen in the Clubhouse at 3:40 PM could easily have been in the Restoration Barn at 3:15, because the Clubhouse is only 4 minutes away.

## TEST 2: MEANS

Clifford was struck with a **chrome tire iron** from a souvenir tool roll. The show sold those tool rolls only at its own stand by the gate, and the killer bought one.

**How to check it:** Look for the last three digits of each finalist's ticket in the stand's sales book (File I). A finalist who is not in it fails this test.

## TEST 3: ACCESS

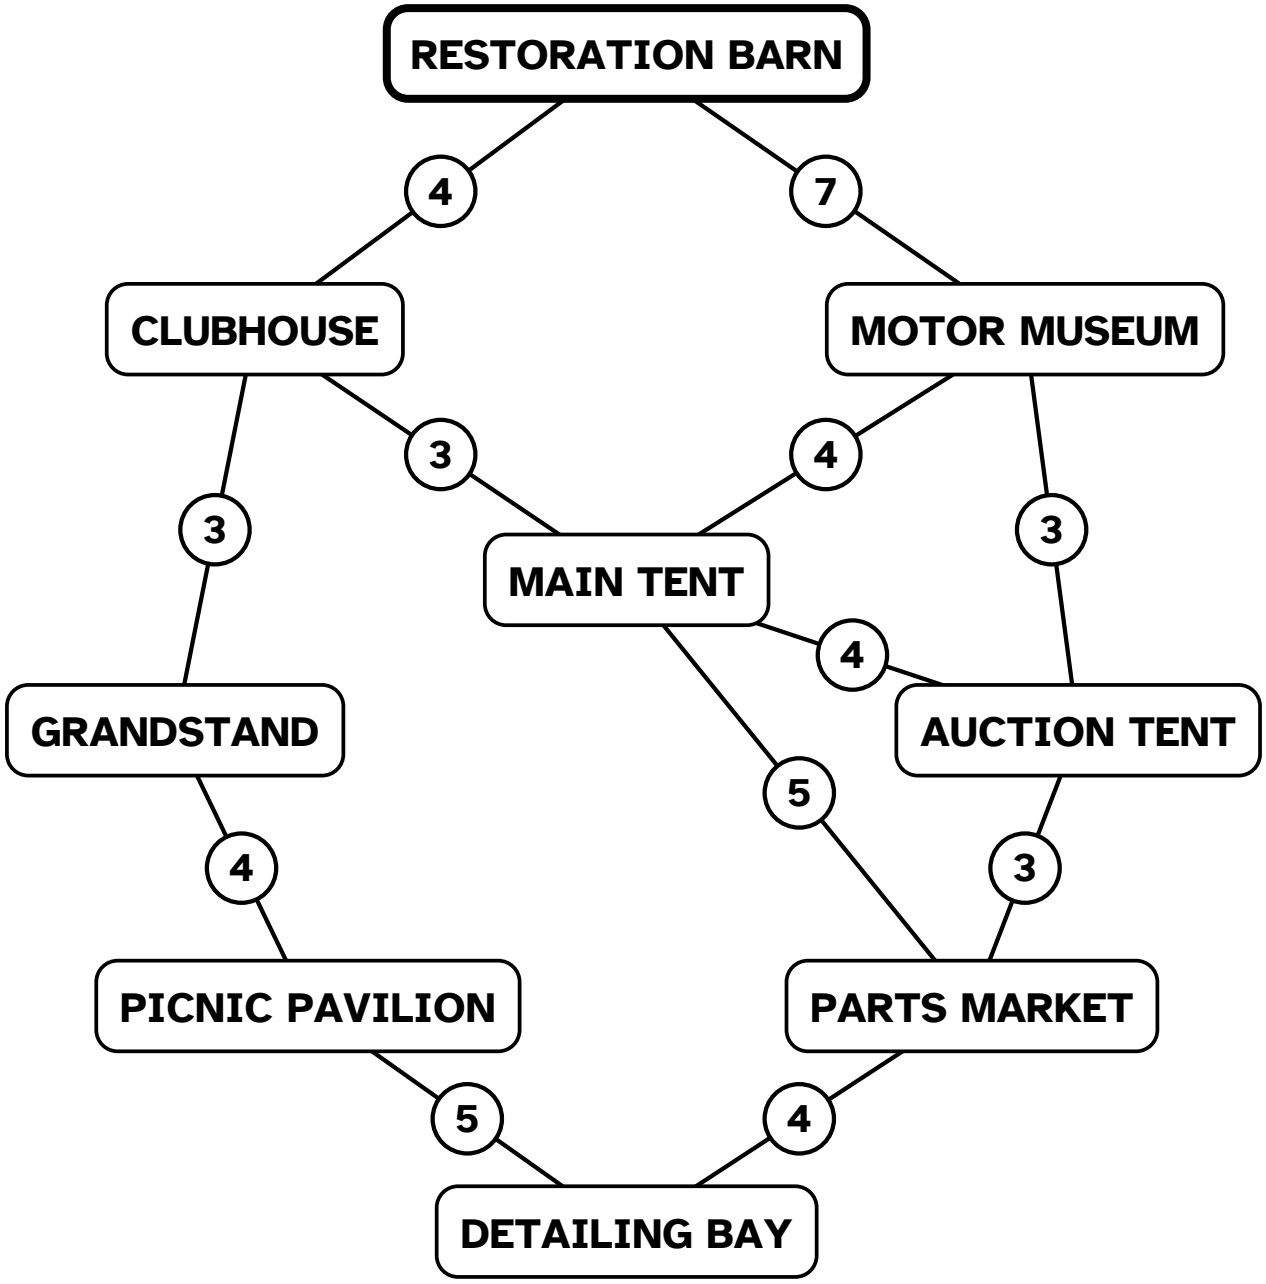

The Restoration Barn was closed to the public. Its side door opened only with a silver **car owner's pass**, given to the people who brought a car to the show. The killer had one.

**How to check it:** Look for the last three digits of each finalist's ticket in the list of owner's passes (File J). A finalist who is not on it fails this test.

Stuck? There are gentle hints for every test on page 57.

# THE DEDUCTION SHEET

Write each finalist's ticket number, then put a check mark if they pass the test and an X if they fail it. The killer is the only one with three check marks.

| **TICKET** | **TEST 1** Opportunity | **TEST 2** Means | **TEST 3** Access |
|---|---|---|---|
| _____ | ☐ | ☐ | ☐ |
| _____ | ☐ | ☐ | ☐ |
| _____ | ☐ | ☐ | ☐ |
| _____ | ☐ | ☐ | ☐ |

**The killer is ticket number** _____

Now work out your Verdict Code on page 60 to check your answer.

# HINTS, PART A: A GENTLE NUDGE

Read these first. Each one tells you where to look, not what you will find.

## TEST 1: OPPORTUNITY

**Hint 1-A.** Work with one finalist at a time. Find every record with the last three digits of their ticket in the records (Files A to H), and note the place and the time.

## TEST 2: MEANS

**Hint 2-A.** Look for the last three digits of each finalist's ticket in File I. The list is in number order.

## TEST 3: ACCESS

**Hint 3-A.** Look for the last three digits of each finalist's ticket in File J. The list is in number order.

# HINTS, PART B: A STRONGER PUSH

Each hint tells you how many of your finalists fail that test.

## TEST 1: OPPORTUNITY

**Hint 1-B.** Exactly 1 of your finalists fails this test.

## TEST 2: MEANS

**Hint 2-B.** Exactly 1 of your finalists fails this test.

## TEST 3: ACCESS

**Hint 3-B.** Exactly 1 of your finalists fails this test.

# HINTS, PART C: THE ANSWERS

Only read this page if you are truly stuck. It explains which finalists fail each test, and why.

## TEST 1: OPPORTUNITY

**Hint 1-C.** The finalist whose ticket ends in 773 was in the Parts Market at 3:13 PM. The quickest walk from the Parts Market to the Restoration Barn takes 12 minutes, so they could not have been there at any moment between 3:10 PM and 3:20 PM.

## TEST 2: MEANS

**Hint 2-C.** The finalist whose ticket ends in 320 is not in File I.

## TEST 3: ACCESS

**Hint 3-C.** The finalist whose ticket ends in 550 is not in File J.

# YOUR VERDICT CODE

When only one suspect is left, work out their **Verdict Code**. It is the only way to check your answer: the solution is never printed as a name anywhere in this book.

**Step 1.** Give every letter of the suspect's first and last name its number from the table below, and add them all up.

**Step 2.** Add the **last three digits** of the suspect's ticket number.

**Step 3.** Look up the total in the Verdict Table on the next page.

| **A** | **B** | **C** | **D** | **E** | **F** | **G** | **H** | **I** | **J** | **K** | **L** | **M** |
|---|---|---|---|---|---|---|---|---|---|---|---|---|
| 1 | 2 | 3 | 4 | 5 | 6 | 7 | 8 | 9 | 10 | 11 | 12 | 13 |
| **N** | **O** | **P** | **Q** | **R** | **S** | **T** | **U** | **V** | **W** | **X** | **Y** | **Z** |
| 14 | 15 | 16 | 17 | 18 | 19 | 20 | 21 | 22 | 23 | 24 | 25 | 26 |

**Example** (not a real suspect): **Ada Bell**, ticket **31207**.

Ada = A 1 + D 4 + A 1 = 6. Bell = B 2 + E 5 + L 12 + L 12 = 31. Name total = 6 + 31 = 37.

Last three digits of the ticket: 207. Verdict Code = 37 + 207 = **244**.

The end of the story is on the next page.

# CASE CLOSED

The Glass Swan turned up that evening, wrapped in a polishing cloth in the trunk of the killer's own show car, parked on the lawn among two hundred others.

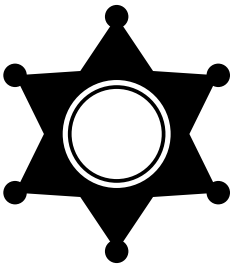

Years ago the killer had owned the Duchess, a rusting wreck in the back of a barn, and had sold her to Clifford for a few hundred dollars, never guessing that the dusty glass bird in a box under the seat was worth a fortune. When the show program called the Glass Swan "priceless", the killer decided it had been stolen once already, and came to take it back.

On Sunday the Duchess was named Best of Show. Her trophy stands in the Motor Museum now, beside a small brass plate: "Restored by Clifford Banning. Nine years, every bolt."

Fifteen hundred visitors, thirteen clues, a map and three tests. You found the one person who could have done it.

Case closed. Well done, detective.
