Cross Out the Killer: Death at the Opera House

A Large Print Murder Mystery Puzzle Book

Bonus Case

Copyright © 2026 Fun Books Publisher. All rights reserved. First edition.

No part of this book may be reproduced or shared in any form without permission from the publisher, except for brief quotations in a review.

This is a work of fiction. The story, the places, the events and the organizations in it are imaginary and are not connected with any real event, place, organization or person. The names in the suspect register were built from public U.S. Census name lists and paired at random; any resemblance to real people is a coincidence.

The case has been checked by computer: there is exactly one killer, every clue is needed to narrow the register down to the finalists, and the answer is never printed in the book.

funbookpublisher.com

WELCOME, DETECTIVE

Thank you for opening this case. Somewhere in these pages, among 2,500 names, one person committed a crime, and you are the only detective on the case.

Every clue is fair, a checkpoint after every clue keeps you on track, and the answer is never printed, so nothing can spoil the surprise. Take it one clue at a time. There is no rush.

Happy sleuthing,
the team at Fun Books Publisher

HOW TO PLAY

You are the detective. A crime has been committed at the Belvedere Opera House, and the killer is one of the **2,500 people** in the Suspect Register, which comes right after the clues.

1. Read the case. The story tells you what happened.

2. Take the clues one at a time. Each clue tells you one true fact about the killer, and exactly what to cross out.

3. Go through the whole register and cross out every suspect who does not match the clue. Draw one straight line through the name, so you can still read it later.

4. Check your work. After every clue there is a **checkpoint**. If your numbers match, carry on. If not, look back over that clue before you move on.

5. Part One ends with 5 finalists. In **Part Two** you study the police case files to find out which of them is the killer. Part Two has its own instructions.

6. Check your answer with the Verdict Code at the end of the book.

You will need: a pen or a fine marker, good light, and a cup of something nice. A ruler or a bookmark helps you keep your place on the page.

Take your time. This is not a race. Most detectives solve a few clues a day.

A QUICK PRACTICE CASE

Here is a tiny register with only six suspects, already solved, so you can see how it works before you start the real case.

TICKET	NAME	AGE	CROSSED OUT BY
~~41207~~	~~Ann Lee~~	~~34~~	Clue 1
~~52818~~	~~Bob Hart~~	~~67~~	Clue 3
~~63544~~	~~Ida Moss~~	~~45~~	Clue 2
~~70132~~	~~Tom Reyes~~	~~52~~	Clue 3
~~81936~~	~~Eve Cole~~	~~28~~	Clue 1
90217	Joe Park	71	**THE KILLER**

Clue 1. The killer is 40 years old or older. Cross out Ann (34) and Eve (28).

Clue 2. The killer's ticket number contains the digit 1. Cross out Ida, because her ticket, 63544, has no 1 in it.

Clue 3. The killer's ticket number is odd. Cross out Bob (52818) and Tom (70132). Only Joe Park is left.

That is all there is to it. The real case works exactly the same way, just with a great many more suspects. Good luck, detective.

CASE FILE

DEATH AT THE OPERA HOUSE

Every autumn for a hundred years, the Belvedere Opera House has opened its season with a gala night: red velvet boxes, crystal chandeliers, champagne in the Grand Foyer and two thousand five hundred guests in evening dress.

This year's gala was meant to be a farewell. Lorenzo Vance had run the Belvedere for forty-two years, and he had promised that at the end of the second act he would stand up in his private box and announce who would inherit the opera house. All evening he kept a sealed envelope with his new will in his jacket pocket.

The second act began at nine o'clock. During the great soprano aria, while the whole house sat in the dark and listened, someone slipped into the Impresario's Box. When the lights came up, Lorenzo Vance was dead in his velvet chair, and the envelope was gone.

Every guest had a numbered gala ticket, and the box office register lists all two thousand five hundred of them: ticket number, name and age. One of those two thousand five hundred guests is the killer.

This is the hardest of the bonus cases, and it works exactly like the books. In **Part One**, the clues will help you rule out suspects until only five **finalists** are left. In **Part Two**, the police files, a map of the opera house and three tests will tell you which of the five did it. Take your time, and do not skip a single name.

DETECTIVE'S NOTEBOOK

Check off each clue when you have finished it. It helps when you come back another day.

MY NOTES

PART ONE: THE CLUES

EVIDENCE #1

Clue 1 of 13

For the hundredth season, the box office played a game with the ages in its register: every guest whose two age digits add up to 10 or less was mailed a "Perfect Ten" paper fan with the ticket. The killer's Perfect Ten fan was found folded on the floor of the Impresario's Box.

Add the two digits of the killer's AGE: the total is 10 or less.

What to do: Cross out every suspect whose age digits add up to more than 10.

CHECKPOINT. When you have finished this clue, page 18 should have **34** names left and page 48 should have **25**. To check any other page, use the Checking Tables on page 65.

EVIDENCE #2

Clue 2 of 13

Gala tickets with a 6 anywhere in the number came out of the old ticket printer, which cuts a straight edge. All the others came out of the new printer, which cuts a wavy edge. A corner torn from the killer's ticket, too small to show any numbers, was found caught in the hinge of the box door. It has a wavy edge.

The killer's ticket number does not contain the digit 6.

What to do: Cross out every suspect whose ticket number has a 6 anywhere in it.

CHECKPOINT. When you have finished this clue, page 34 should have **25** names left and page 62 should have **11**. To check any other page, use the Checking Tables on page 65.

EVIDENCE #3

Clue 3 of 13

Every guest received a silk handkerchief with the invitation, with the first name stitched in one corner by machine. The machine's letter N had broken, so every first name with an N in it got a handkerchief with no stitching at all. The killer's handkerchief was left on the floor of the box. The thread has been picked out, but the needle holes show that a name was stitched there.

The killer's FIRST name does not contain the letter N.

What to do: Cross out every suspect whose first name contains the letter N.

CHECKPOINT. When you have finished this clue, page 33 should have **19** names left and page 55 should have **12**. To check any other page, use the Checking Tables on page 65.

EVIDENCE #4

Clue 4 of 13

Every ticket whose five digits add up to 20 or more was entered in the centenary prize draw, and a small crown was printed on its back. The corner of the killer's ticket from the door hinge has the crown on its back.

Add up the five digits of the killer's ticket: the total is 20 or more.

What to do: Cross out every suspect whose ticket digits add up to less than 20.

CHECKPOINT. When you have finished this clue, page 24 should have **2** names left and page 42 should have **10**. To check any other page, use the Checking Tables on page 65.

EVIDENCE #5

Clue 5 of 13

After the opera, every guest was invited to a candlelit supper. The place cards had a row of five little printed boxes for the first name, one letter in each box, and any first name longer than five letters had to be written in by hand instead. The killer's place card was found under the velvet chair in the Impresario's Box. It is smudged, but the name was printed in the boxes, not written by hand.

The killer's FIRST name has 5 letters or fewer.

What to do: Cross out every suspect whose first name has more than 5 letters.

CHECKPOINT. When you have finished this clue, page 22 should have **6** names left and page 56 should have **4**. To check any other page, use the Checking Tables on page 65.

EVIDENCE #6

Clue 6 of 13

The tickets were mailed out in two batches, sorted by the middle digit of the ticket (the third one): tickets with a 0 to 4 there went out in lavender envelopes, and tickets with a 5 to 9 there went out in gray envelopes. Half of the killer's ticket envelope, the half without the address, was found in the private passage to the box. It is gray.

The MIDDLE digit of the killer's ticket (the third one) is 5 or more.

What to do: Cross out every suspect whose middle ticket digit is less than 5.

CHECKPOINT. When you have finished this clue, exactly **111** suspects should be left in the whole register.

EVIDENCE #7

Clue 7 of 13

Before mailing, the clerks stamped a small arrow on every ticket envelope: pointing up when the first digit of the ticket is bigger than the last digit, and pointing down in every other case. The killer's gray envelope from the private passage has the arrow pointing up.

The FIRST digit of the killer's ticket is bigger than the LAST digit.

What to do: Cross out every suspect whose first ticket digit is equal to or smaller than the last.

CHECKPOINT. When you have finished this clue, exactly **69** suspects should be left in the whole register.

EVIDENCE #8

Clue 8 of 13

Each gala program held a keepsake from the composer: a "name melody" card with one note for every A, E, I, O or U in the guest's first name (the same vowel twice gives two notes, and a Y gives none). The killer's melody card was found in the private passage with the name torn off. Part of the music is torn away too, but at least two notes are still there.

The killer's FIRST name has 2 or more vowels (count A, E, I, O, U only).

What to do: Cross out every suspect whose first name has fewer than 2 vowels.

CHECKPOINT. When you have finished this clue, exactly **40** suspects should be left in the whole register.

EVIDENCE #9

Clue 9 of 13

The supper place cards were printed by a little machine that counts letters: when a guest's last name has more letters than the first name, it prints a small star in the top corner of the card. The killer's place card from under the velvet chair has the star.

The killer's LAST name is longer than the first name.

What to do: Cross out every suspect whose last name is the same length as, or shorter than, the first name.

CHECKPOINT. When you have finished this clue, exactly **30** suspects should be left in the whole register.

EVIDENCE #10

Clue 10 of 13

Each gala program had the guest's last name printed on the cover. The program printer had lost its letter I, so every last name with an I in it was written on the cover by hand instead. The killer's program was found torn in the private passage. The last name on it was printed, although the ink is too smudged to read.

The killer's LAST name does not contain the letter I.

What to do: Cross out every suspect whose last name contains the letter I.

CHECKPOINT. When you have finished this clue, exactly **20** suspects should be left in the whole register.

EVIDENCE #11

Clue 11 of 13

Every program had a ribbon bookmark, chosen from the age in the box office register: a green ribbon for an even age and a white ribbon for an odd age. The ribbon on the killer's torn program is green.

The killer's AGE is an even number.

What to do: Cross out every suspect whose age is an odd number.

CHECKPOINT. When you have finished this clue, exactly **12** suspects should be left in the whole register.

EVIDENCE #12

Clue 12 of 13

The invitations were sealed with wax, and the color of the wax came from the age in the register: red wax for guests with a 2 anywhere in their age, and black wax for everyone else. The killer's invitation, with the name cut away, was found in the private passage. Its seal is black.

The killer's AGE does not contain the digit 2.

What to do: Cross out every suspect whose age has a 2 in it.

CHECKPOINT. When you have finished this clue, exactly **7** suspects should be left in the whole register.

EVIDENCE #13

Clue 13 of 13

The last clue. Every guest was mailed a pair of souvenir opera glasses in a leather case, with the last name stamped on the lid. The stamping set had no letter D, so every last name with a D in it got a case with a blank lid. The killer's case was found under the seats of the box. The lid is badly scratched, but you can still see that a name was stamped on it.

The killer's LAST name does not contain the letter D.

What to do: Cross out every suspect whose last name contains the letter D.

CHECKPOINT. When you have finished this clue, exactly **5** suspects should be left in the whole register. These are your **finalists**. Write their names and ticket numbers in the box on page 68, then turn to Part Two.

PART TWO: THE CASE FILES

Well done, detective. Five finalists are left, and every one of them matches every clue. Now find out which of them killed Lorenzo Vance.

The staff copied the records in a hurry and wrote down only the **last three digits** of each ticket, never names. So first write down your five finalists and their full ticket numbers in the box below. Many other numbers appear in the files: they belong to people you crossed out in Part One, so you can ignore them. When a record's three digits match one of your finalists, it belongs to that finalist: the police have already checked.

The guest records are **not complete**, so a finalist who is missing from them has done nothing wrong. What counts is a record that puts a finalist somewhere else at the wrong time. The last two files, for the bookends and for the Patron's Circle keys, are complete lists.

The killer must pass all **three tests** on the next page. Each of the other four finalists fails at least one.

MY FINALISTS

Ticket _____ Name _____

Ticket _____ Name _____

Ticket _____ Name _____

Ticket _____ Name _____

Ticket _____ Name _____

THE THREE TESTS

TEST 1: OPPORTUNITY

Lorenzo Vance was attacked in his box during the great aria of the second act, at some moment between **9:12 and 9:20 PM**. The killer had to be in the Impresario's Box at some point in that window, even if only for a moment.

How to check it: Look up the last three digits of each finalist's ticket in the guest records (Files A to K). If a finalist was seen somewhere at a time that makes it **impossible** to reach the Impresario's Box between 9:12 and 9:20, that finalist fails this test. The map shows the walking time along each passage. To find the time from one place to another, **add up the minutes along the quickest route**, and be careful: the most direct-looking route is not always the quickest. Walking times are the same in both directions.

Example: the Opera Shop is joined to the Stalls by a side corridor that takes 8 minutes, but going through the Grand Foyer takes only 3 + 3 = 6 minutes. So the quickest walk between them is 6 minutes. In the same way, someone seen in the Rose Garden at 9:25 PM could not have been in the Impresario's Box between 9:12 and 9:20: the quickest route takes 15 minutes, so they would have had to leave the box by 9:10.

And the other way around: someone seen in the Grand Tier at 9:40 PM could easily have been in the Impresario's Box at 9:16, because it is only 2 minutes away.

TEST 2: MEANS

Lorenzo Vance was struck with a heavy **bronze lyre bookend**, sold that night only at the Opera Shop. The killer bought one.

How to check it: Look for the last three digits of each finalist's ticket in the Opera Shop's sales book (File L). A finalist who is not in it fails this test.

TEST 3: ACCESS

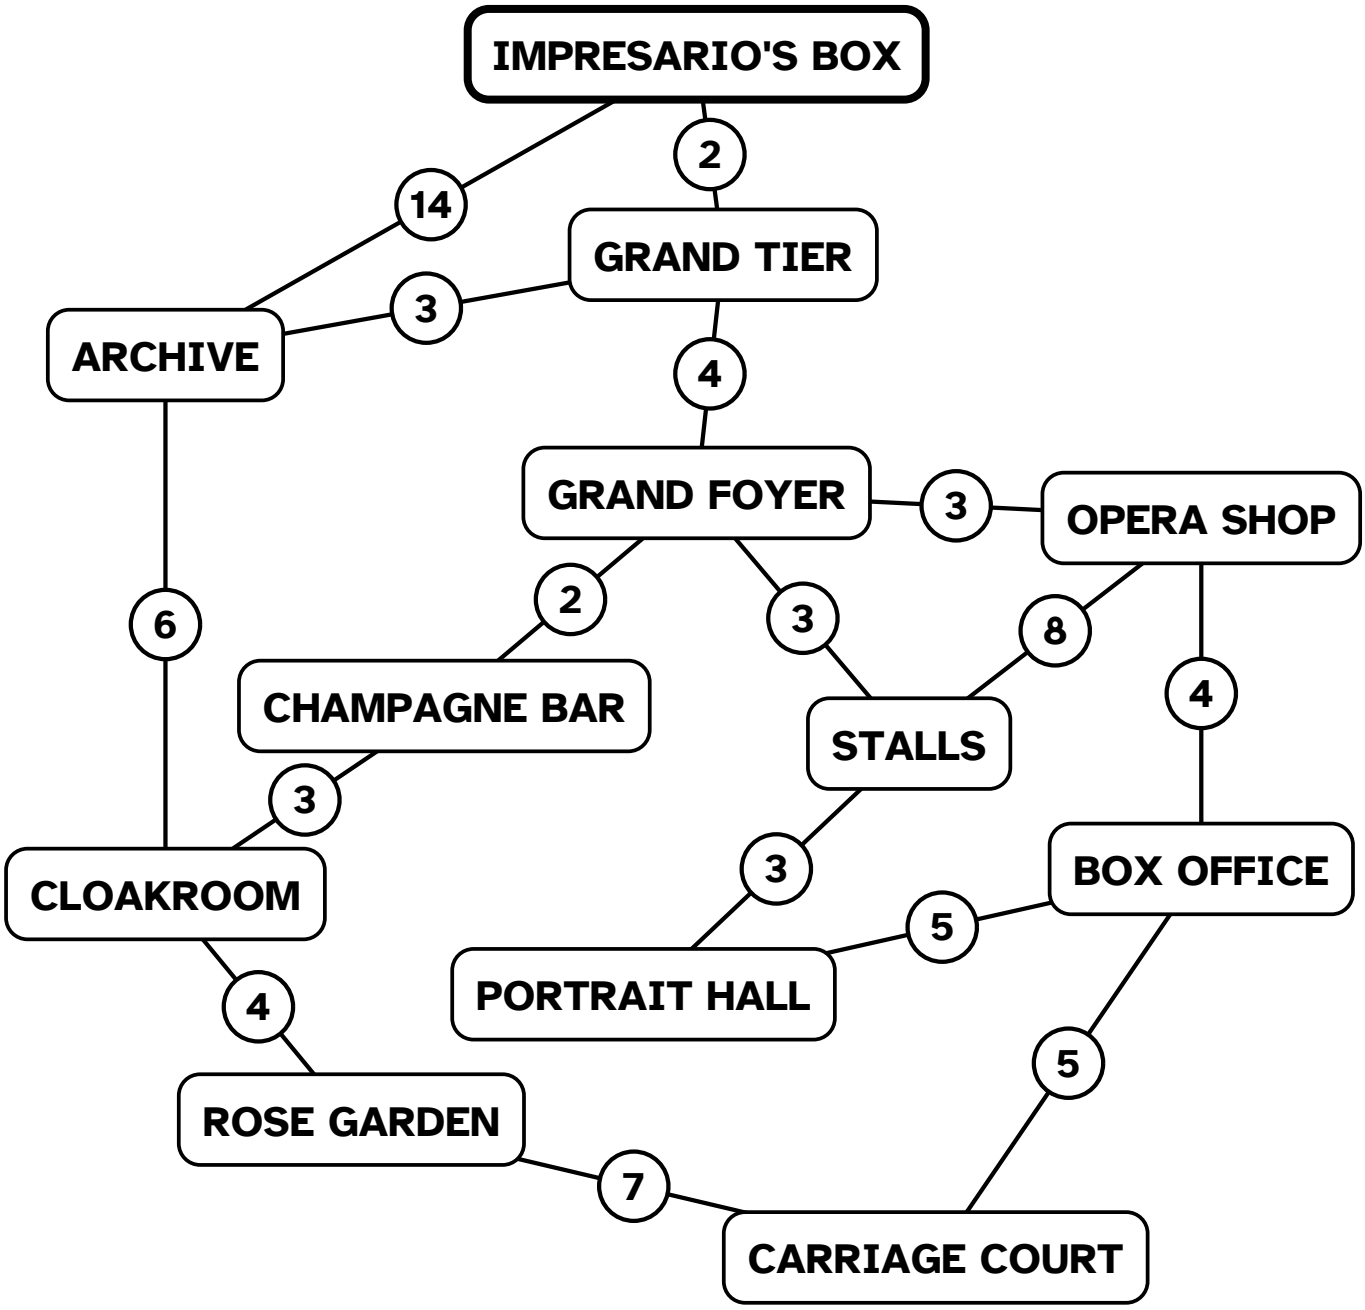

The private passage to the Impresario's Box is behind a locked door, and only a gold **Patron's Circle key** opens it. The killer had one.

How to check it: Look for the last three digits of each finalist's ticket in the list of Patron's Circle keys (File M). A finalist who is not on it fails this test.

Stuck? There are gentle hints for every test on page 79.

MAP OF THE BELVEDERE OPERA HOUSE

Each number is the walking time, in minutes, along that passage. Add up the minutes along the quickest route, and check every route: the most direct one is not always the fastest.

FILE A · Grand Tier Program Sales

Program sales in the Grand Tier, with the time and the ticket, from the one seller who kept a list.

THE DEDUCTION SHEET

Write each finalist's ticket number, then put a check mark if they pass the test and an X if they fail it. The killer is the only one with three check marks.

TICKET	**TEST 1** Opportunity	**TEST 2** Means	**TEST 3** Access
_____	☐	☐	☐
_____	☐	☐	☐
_____	☐	☐	☐
_____	☐	☐	☐
_____	☐	☐	☐

The killer is ticket number _____

Now work out your Verdict Code on page 82 to check your answer.

HINTS, PART A: A GENTLE NUDGE

Read these first. Each one tells you where to look, not what you will find.

TEST 1: OPPORTUNITY

Hint 1-A. Work with one finalist at a time. Find every record with the last three digits of their ticket in the records (Files A to K), and note the place and the time.

TEST 2: MEANS

Hint 2-A. Look for the last three digits of each finalist's ticket in File L. The list is in number order.

TEST 3: ACCESS

Hint 3-A. Look for the last three digits of each finalist's ticket in File M. The list is in number order.

HINTS, PART B: A STRONGER PUSH

Each hint tells you how many of your finalists fail that test.

TEST 1: OPPORTUNITY

Hint 1-B. Exactly 2 of your finalists fail this test.

TEST 2: MEANS

Hint 2-B. Exactly 1 of your finalists fails this test.

TEST 3: ACCESS

Hint 3-B. Exactly 1 of your finalists fails this test.

HINTS, PART C: THE ANSWERS

Only read this page if you are truly stuck. It explains which finalists fail each test, and why.

TEST 1: OPPORTUNITY

Hint 1-C. The finalist whose ticket ends in 550 was in the Portrait Hall at 9:19 PM. The quickest walk from the Portrait Hall to the Impresario's Box takes 12 minutes, so they could not have been there at any moment between 9:12 PM and 9:20 PM. The finalist whose ticket ends in 717 was in the Carriage Court at 9:25 PM. The quickest walk from the Carriage Court to the Impresario's Box takes 18 minutes, so they could not have been there at any moment between 9:12 PM and 9:20 PM. Every other finalist passes this test. If you crossed out anyone else, check every route on the map again: the most direct path is not always the quickest.

TEST 2: MEANS

Hint 2-C. The finalist whose ticket ends in 723 is not in File L.

TEST 3: ACCESS

Hint 3-C. The finalist whose ticket ends in 591 is not in File M.

YOUR VERDICT CODE

When only one suspect is left, work out their **Verdict Code**. It is the only way to check your answer: the solution is never printed as a name anywhere in this book.

Step 1. Give every letter of the suspect's first and last name its number from the table below, and add them all up.

Step 2. Add the **last three digits** of the suspect's ticket, read as one number: ticket 31207 adds 207 (not 2 + 0 + 7), and a ticket ending in 056 adds 56.

Step 3. Look up the total in the Verdict Table on the next page.

A	**B**	**C**	**D**	**E**	**F**	**G**	**H**	**I**	**J**	**K**	**L**	**M**
1	2	3	4	5	6	7	8	9	10	11	12	13
N	**O**	**P**	**Q**	**R**	**S**	**T**	**U**	**V**	**W**	**X**	**Y**	**Z**
14	15	16	17	18	19	20	21	22	23	24	25	26

Example (not a real suspect): **Ada Bell**, ticket **31207**.

Ada = A 1 + D 4 + A 1 = 6. Bell = B 2 + E 5 + L 12 + L 12 = 31. Name total = 6 + 31 = 37.

Last three digits of the ticket: 207. Verdict Code = 37 + 207 = **244**.

THE VERDICT TABLE

Find your Verdict Code in the list. If it is not here, check your adding up first, then go back to your last checkpoint.

43 No suspect left standing has this code. Go back to your last checkpoint.

STOP, DETECTIVE

Do not turn the page until the Verdict Table says **CASE CLOSED**.
The end of the story is on the next page.

CASE CLOSED

The envelope turned up the next morning, folded small behind a loose panel in the private passage to the Impresario's Box.

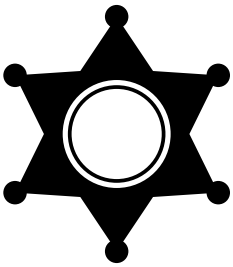

The new will explained everything. Lorenzo Vance had not left the Belvedere to the person he had promised it to. He had left it to the city, on one condition: that every gala night, a hundred seats would be given free to young singers who could not afford a ticket. The person who had been promised the opera house was in the audience that night, and was not going to hear it given away in front of two thousand five hundred guests.

The Belvedere opened its season on time, and the hundred free seats were full. The Impresario's Box is never sold now. Every gala night, a single white lily is left on the velvet chair.

Two thousand five hundred guests, thirteen clues, a map full of routes and three tests. You found the one person who could have done it.

Case closed. Bravo, detective.
